Panels Lumber Melamine Hardwood Plywood Architectural Panels Colored Caulk Particle

## The Perfect Finish for Hardwoods, Laminates and Melamine

We stock the most popular edgeband sizes and species, along with a selection of PVC edgeband to meet all your finishing needs. Edgeband provides a completely consistent appearance when combined with a variety of surface components for beautifully finished countertops, tabletops, shelves and desks.

Solids, patterns and woodgrains are available in PVC edgebanding to match most melamine and laminates we stock. Contact a member of our sales team at your local distribution center for custom order colors.

# EDGE BAND

## VENEER EDGE BAND

Edgeband is the perfect finishing touch. It's an easy and cost-effective way to give plywood panels the appearance of solid wood. Veneered edgebanding saves time by eliminating the need to rip solid hardwoods into strips, and then clamp, glue and nail into place. Selected veneers are end-matched for color and grain consistency, finger-jointed and laminated to a continuous fleece membrane to provide a high quality continuous veneer. The veneer is fine-sanded for improved finishing.

\*23 gram fleece-backed veneer rolls

## PVC/POLYESTER

PVC/polyester edgebanding is the choice for giving edges on melamine, vinyl, and coated laminate panels a professional, finished look. PVC/polyester edgebanding is manufactured from first-quality resins and high-impact modifiers that produce a product with excellent machinability, impact resistance, durability, and overall appearance.

### Stock Items:

Color	Polyester 7/8" 250' Pre-Glued Iron-On	PVC 15/16" 600' No-Glue Auto Edgebander
White	•	•
Black	•	•
