Supplies for Every Project

In addition to lumber and other hardwood products, we stock materials and accessories to meet all of your construction needs, including:

- Abrasives
- Caulk
- Router Bits
- Saw Blades
- Wood Putty and Filler
- Tools (some locations)

We stock top-quality, brand-name products that professionals have trusted for years, including Amana saw blades and router bits. When you place your next order for lumber or plywood, add the accessories to complete your project.

MISCELLANEOUS PRODUCTS

ABRASIVES

The distribution centers offer a selection of high-quality and durable sanding products that resist loading better than the competition, allowing you the means to deliver a professional quality product.

Sanding Products Available:

- Sanding Belts
- Sanding Discs
- Respirator Masks
- 9 x 11 Sanding Sheets
- Sanding Pads
- Vinyl Gloves

COLOR CAULK

ColorRITE™ Caulk

ColorRITE™ is a versatile product formulated to meet the demands of fabricators, installers, architects, builders and designers.

ColorRITE sealants and caulks match thousands of colors for all the leading laminate, solid surface, kitchen and bath fixture, flooring material, wall covering and paint brands. An advanced acrylic/adhesive formula allows ColorRITE to dry firm, yet flexible. It's an ideal caulk for countertops and back splashes, or to fill and seal seams and gaps, and adhere miter joints. Plus, it adheres to all interior finishes.

The smooth, non-porous texture of ColorRITE offers a virtually seamless look that's moisture, mildew, and stain resistant. It cleans up easily with water before curing, and, once it's cured, will stay flexible enough to allow seams to expand and contract from heat, moisture, humidity, and shifting, without cracking.

Kitchen & Bath Applications Include:

- Sealing Backsplashes
- Caulking Around Stoves & Bathroom Fixtures
- Custom colors available through special order
- 10 oz. caulk tubes
- Finishing Between Cabinets
- 70 standard colors
- 4 oz. squeeze tubes

AMANA TOOL®

Amana Tool® features the most comprehensive range of industrial quality router bits, boring bits, and saw blades. Through years of extensive research, Amana Tool has developed special grades of carbide steel for all of their tools. These carbide grades are designed for the highest quality cuts, longevity, and ease of re-sharpening. All Amana Tool products are carefully examined in many different ways, both during and after production, to assure the highest quality bits and blades in the industry.

Router Bits

Amana Tool offers more than 800 different router and boring bits, providing a comprehensive range of industrial quality tools. Years of research in both materials and process guarantee tools with:

- The highest quality cut
- Maximum efficiency
- Long tool life

Triple Edge Beading

Flush Trim "V" Groove

Spiral Flute Plunge

Two-Flute Flush Trim

We offer an extensive selection of router bits, including:

- Trim Bits
- Boring Bits
- Plunge Bits
- Pandel & Mortising
- Core Box
- "V" Groove
- Rabbeting
- Door Pull
- Dove Tail
- Corner Round
- Bullnose
- Cove
- Classical Molding
- Ogee
- Joinery
- Solid Surface
- Edge Bead
- Crown Molding
- Architectural Molding
- Table Edge
- Handrail
- Raised Panel
- Stile & Rail
- CNC

Saw Blades

All Amana Tool saw blades are fully ground and hardened to RC-44 on the Rockwell “C” scale. Extra-large, European-style carbide tips have been fully ground on the top, face, and side to achieve the highest surface quality finish, ensuring a smooth and trouble-free cut.

Multiple Tooth & Grind Combinations

Available for:

Cut-Off

General Purpose

Combination

Melamine

Ripping

Solid Surface

We carry a selection of Amana saw blades to meet virtually every need:

- Adjustable Type Scoring Sets
- Combination Ripping & Cross-Cut
- Conical Type Scoring

Six Distribution Centers Serving the Southeast

We are committed to being your natural resource for hardwood lumber, plywood, veneers and a variety of quality cabinet supplies. As an industry leader, we continually upgrade our services and equipment to ensure on-time delivery for every order and the broadest possible offering of remanufacturing services. Six strategic locations throughout the Southeast allow us to provide top-notch service combined with competitively priced products.

Our premium hardwood is air-dried under sheds to guarantee flat, bright lumber. Covered air-drying sheds, computerized kiln controls, variable-speed fans, equalizing and conditioning ensure a consistent, high-quality product.

State-of-the-art computerized systems ensure that inventory is up-to-date and the highest quality standards are maintained in every process, from kiln drying to custom sorting. Please contact one of our six distribution centers for detailed information about product availability, custom orders and lead-times for specialty products.

Members of the Georgia Chapter of the Architectural Woodwork Institute (AWI), Wood Components Manufacturer's Association (WCMA), National Hardwood Lumber Association (NHHLA), the North American Building Material Distribution Association (NBMDA), and the Hardwood Distributors Association (HDA).
