

Red Grandis

Red Grandis is a consistent, premium quality wood ideally suited for high-end applications in furniture, cabinetry, mouldings, windows and doors. Renowned for stability, it serves as an excellent alternative to Spanish cedar and mahogany for exterior applications.

Red Grandis offers an ecological alternative to many tropical hardwoods. Versatile and strong, this beautiful hardwood is 100% FSC® certified.

The heartwood can vary in color from pale pink to medium pink. It has a uniform, but moderately coarse textured grain which is usually straight or slightly interlocked.

A versatile, ecological alternative...
